

Kylin Soong (宋志麒)
(+86) 18611907049
kylinsoong.1214@gmail.com

Objective

- Development or Consultant position in one of the following (or similar) areas:
 - Middleware(JBoss,Weblogic,WebSphere) platform reference, large/complex JEE based system
 - BPM/jBPM based system or solution
 - Cluster cache/data grid, in-memory cache, large-scale reliable data dissemination based system or solution
- Position must be in Beijing

Skills

- OpenSource, Java, Java EE, JBoss/WildFly, JBoss Cluster, JBoss Module, JBoss MSC, jGroups, JBossCache, Tomcat, Weblogic
- BPM, jBPM, Drools,
- EJB, JPA, Hibernate, Web Service, Restful Web Service, CDI, JSF, GWT, Struts, JSP/Servlet, Maven, Ant
- Database, Oracle, Mysql, PostgreSQL
- JMS, HornetQ, JBossMessaging, JBossMQ, ActiveMQ, TIBCO EMS
- No-SQL, Cassandra, MongoDB, Infinispan
- JVM
- Paas, OpenShift, Cloud Foundry
- English

Additions

- jBPM, No-SQL based JEE application on Red Hat Paas OpenShift
 - [quick access: click here](#) , [source code](#)
 - jBPM 5 play as BPM Engine, JPA/Hibernate operate H2 database, No-Sql Infinispan used to persist audit log, Red Hat OpenShift use JBoss 7 as cartridge
- Jcommerce
 - Opensource, I joined at Aug 2009, it first registered on sourceforge at 2003-04-29 , [the original jcommerce on sourceforge](#). Since Aug 2013, Jcommerce move to [GitHub](#).
 - JCommerce is traditional Java EE application, Use both Spring and JBoss implmentation to interact with database like Oracle, Mysql, GWTP based admin and front selectively use either Spring implementaion, or JBoss implementation.

- JBoss Cluster Demo
 - o [Source Code](#) and [Release Download](#)
 - o The demos show the underlying of JBoss Cluster and Java EE application Cluster on JBoss, including web application cluster, EJB(Stateful, Stateless) cluster, HornetQ message cluster
- Blogger and OpenSource
 - o [Expert Architecture in CSDN](http://blog.csdn.net/kylinsoong):<http://blog.csdn.net/kylinsoong>
 - o Translate Bela Ban's [Jgroups Manual](#)([Chaper One](#), [Chaper two](#), [Chapter three](#))
 - o [Github Link](https://github.com/kylinsoong):<https://github.com/kylinsoong>
 - o [Early blog](http://kylinsoong.iteye.com/):<http://kylinsoong.iteye.com/>
- The Reviewer of Book WildFly Performance Tuning
 - o I'm one of reviewers of Book Book WildFly Performance Tuning for [packtpub](#), which it will formal publish later this year.

Work Experience

Mar 2012 – Present Technical Support Engineer

Red Hat Beijing, JBoss/jBPM Support Engineer

Architect, design, support Red Hat customer in JBoss Middleware for development and implementation of complex products and solution. Contributing on JBoss community in jBPM projects. Assisted the Red Hat Sales analyze and scope customer requirements.

Jul 2009 – Mar 2012 Software Engineer

TIBCO, Beijing, Software Engineer

Worked with Global Team in charge of TIBCO BPM Product iPorcess Conductor's developing, maintaining, upgrading and supporting. Including new version release, Bug fix, customer SR resolution.

Education

B.S. Computer Science from China University of Geosciences

Summary

- Proficiency in Java programming
- Proficiency in JEE environment(JBoss, Weblogic) development
- Knowledge of Middleware architecture
